(RAILWAY BOARD.)

Simla, the 26th September 1916.

No. 640 F.16.—In pursuance of section 135 of the Indian Railways Act, 1890 (IX of 1890), the Governor General in Council is pleased to declare that the Administration of the South Indian Railway shall be liable to pay, in aid of the funds of the local authority set out in the schedule hereto annexed, the tax specified in second column thereof :—

SCHEDULE.

Local authority.	Tax.
Pollachi Union	Hump-tax.

No. 1031.—Under clause (x) of sub-section (1) of section 250 of the Madras District Municipalities Act, 1884, and in supersession of all previous notifications issued on the subject, the Governor in Council is pleased to issue the following rules to regulate the action taken in combating epidemics of cholera in municipal areas in this Presidency. These rules will come into force three months after their first publication in the district gazettes in English and in the vernacular language of the district

RULES FOR COMBATING EPIDEMICS OF CHOLERA IN MUNICIPAL AREAS.

General.—It is now a generally accepted belief that the infection of cholera is conveyed by microbes which exist in the vomit and excreta of persons attacked thereby. The present rules aim in the first instance at providing for the immediate destruction of these microbes. Should they remain undestroyed, there is imminent risk that they may be conveyed into positions in which they will be swallowed by other persons and so infect them with the disease, for instance, rain would wash them into drinking water supplies and the wind and flies and other insects would carry them into articles of food.

2. The earliest possible information of every attack of cholera should be conveyed to the authorities. This will enable them to prevent the spread of the disease, by taking steps to destroy the microbes issuing from such early cases and by providing medical assistance and means of disinfection

3. Municipal councils will be responsible for the general carrying out of the scheme and for the control of the observation staff referred to in rule 7. In municipalities where a Health Officer is employed, the Health Officer will be responsible for the necessary medical arrangements and for the control of the preventive staff referred to in rule 12; in municipalities where there is no Health Officer but a Civil Surgeon, the latter will undertake these duties; in other cases, the District Medical and Sanitary Officer, or such subordinate officer as he may designate, will be responsible for them.

4. For the purposes of these rules every municipal area will be divided into circles which should, as far as possible, follow ward divisions, so that they may be readily comprehended. In municipalities where there are wards containing less than 1,200 houses and a population of less than 5,000 persons each, two or more wards may be comprised in one circle. Three circles should ordinarily form a division, and in no case should a division contain more than four circles. Chairmen should map out their towns into circles and divisions, and after approval by the Collector, record the maps in their offices, sending copies to the officers responsible for the medical arrangements.

5. For each division the Chairman should have ready in the municipal stores not less than the following quantities of apparatus and disinfectants, he is responsible for seeing that these stores are always in stock and that they are in good condition :—

Twelve portable tin canisters for disinfectants
Nine lb. perchloride of mercury.
Nine lb. commercial hydrochloric acid.
Sixty lb. carbolic acid.
Six hundred lb. of saw-dust and 600 lb of unslaked lime.
Twenty lb. of permanganate of potash.

6. *Observation.*—Should it appear to the Collector of the district that cholera imminently threatens to attack any municipality, he should warn the Chairman of the Council, the District Medical and Sanitary Officer and the officer responsible for the medical arrangements of the town.

7. Upon receipt of such warning, or of information otherwise of the occurrence of cholera in the town or so near to it that it is imminently threatened, the Chairman should immediately appoint an observation staff, which should ordinarily consist of an inspector a peon and a toti for each circle and of a divisional inspector and an orderly for each division. The orderly should be allowed a bicycle or other means of conveyance to enable him to carry orders without delay. The Chairman should at once report to the Collector the staff employed and the data from which it has been employed and should comply with any instructions which the Collector may issue on the subject.

The salaries and allowances of the staff should not ordinarily exceed the following rates, which in the case of circle and divisional inspectors should be granted only to certificated or qualified sanitary or assistant sanitary inspectors :—

	Rs.
Circle inspector	35
Conveyance allowance	15
Circle peon	8
Circle toti	7
Divisional inspector	45
Conveyance allowance	15
Orderly	8
Bicycle or other conveyance allowance to orderly	7

8. The staff should preferably be drawn from the existing sanitary establishment of the municipality, whose places should be filled by temporary hands.

9. It will be the duty of the members of the observation staff to patrol the whole of their circles constantly and systematically and to obtain early information as to the first case of cholera or severe diarrhœa occurring therein, in order that immediate action may be taken. At such times, cases of severe diarrhœa should be considered to be as dangerous as cholera. The members of the observation staff should also be employed in removing, with the aid of the ordinary conservancy establishment, all defects in sanitation which would favour the dissemination of the cholera microbe. In particular they should be furnished with packets of permanganate of potash for use in treating suspected sources of water-supply.

10. They should further warn the inhabitants of the circles to adopt the precautions against cholera prescribed in the annexure to these rules and should distribute gratis and as widely as possible copies of these instructions, which the Chairman will keep ready printed in the vernacular.

11. The municipal servants of all ranks should assist the observation staff and police in every way which is compatible with their other duties in obtaining information of first attacks and in removing sanitary defects.

12. *Prevention.*—On receipt of information of a first attack of cholera, the Chairman should at once convert the observation staff of the circle concerned into a preventive staff by the addition of three peons and three totis, or such other establishment as the Collector, in consultation with the District Medical and Sanitary Officer, may consider necessary.

13. The preventive staff shall visit every house in which cholera has occurred and shall use the greatest care in seeing that all choleraic vomit and excreta are at once collected, mixed with saw-dust, paddy husk, or other combustible matter with which carbolic acid has been mixed in the proportion of one in ten and, where necessary, with kerosene oil, and burnt on or near the premises. The Chairman will delegate to the Health Officer or Senior Medical Officer of the town and to any other persons who may have to act under this rule his powers of entering and inspecting houses under section 231 (1) of Act IV of 1884.

14. Rags stained with vomit or excreta should be burnt on the spot, full compensation in money or kind being offered in the case of the really poor; clothes and bedding may be boiled in disinfectants and returned.

15. After a case of cholera the house (and especially the room which the patient occupied), the floors, the walls and the furniture should be thoroughly disinfected with a solution of perchloride of mercury made up as shown in the margin. All drains which discharge into the open should be flushed with the perchloride solution.

½ oz. perchloride of mercury.

1 oz. of hydrochloric acid.

3 gallons (one small chattyful) of water, with a pinch of red ink powder to colour it to prevent accidents.

Note.—Wooden buckets or earthen pots should be used for carrying about this solution, as it destroys metal vessels, and the packets of the solid perchloride should be labelled "Poison" in English and the vernacular and only entrusted to the inspectors themselves.

It is most desirable that the excreta of a patient for at least ten days after he has recovered from an attack should be carefully collected, disinfected and carried away, as they still contain cholera microbes. For this purpose a Dudgeon bucket ferry and air tight iron excreta drums may be provided, if the Council finds their purchase necessary.

16. The greatest courtesy and consideration should be used to all classes by the preventive staff, when carrying out these instructions.

17. The Chairman should provide the officer responsible for working the rules with a permanent advance of Rs. 50 for each division; the advance should be recouped from time to time by bills supported by vouchers where possible.

18. The preventive staff should be maintained in an affected circle for ten days after the last attack of cholera therein, and the observation staff should be maintained in all circles or in such groups of circles as the Collector may approve for twenty-one days after the last attack in the town. During this time they should be employed in remedying sanitary defects.

19. *Medical aid.*—In the larger municipalities there should be a headquarter station in each division. If the epidemic is severe, a medical subordinate should, if possible, be obtained and should reside at this station, where he should be supplied with medicines and medical comforts from the municipal hospital for the treatment of persons attacked. He will also be available for attendance free of charge on the sick in their own houses. If one or more extra medical subordinates cannot be obtained, then the cholera work should be divided, to suit local circumstances, among the medical officers locally available, each one so deputed being made responsible for one or more divisions. So far as possible all medical officers and subordinates employed on cholera duty should be practically instructed in Sir Leonard Rogers's method of treatment of cholera patients by intravenous saline injections, and provided with the appliances necessary for the same.

The headquarter station of the medical subordinate should also be the headquarters of the divisional inspector and of the preventive staff on night duty.

20. In one place at least in each town, and preferably in an isolated portion of a hospital compound, there shall be one or more isolation wards with separate accommodation for males and females for the treatment of those who desire treatment or who are brought there. These wards should be in charge of a medical subordinate and staff and should be supplied with equipment, medicines and medical comforts.

21. Charges for medical treatment under these rules shall be met from the allotment in the budget under the head "Grant 3—Hospitals and Dispensaries."

22. The headquarters of the divisions and the sites of the isolation wards should be marked on the maps referred to in rule 4 above.

23. In order to make provision for meeting the charges under the portions of this scheme which relate to observation and prevention, every municipal council should allot in its budget under "Cholera charges" a sum which should be in the proportion of Rs. 1,000 to every 25,000 inhabitants in the municipality. This should be called the "cholera reserve" and should not be spent upon any object except the carrying of this scheme into execution.

24. The provision of this reserve should not be allowed to disturb the existing percentages to the total municipal income of the expenditure upon communications, education, sanitation, etc., or to swell the total of the allotment made for sanitary purposes under Grants 1, 3 and 4 taken together, but should be set aside from funds which would otherwise be expended upon sanitary works of a permanent nature.

25. The officer responsible for working these rules should, fifteen days after the last attack in any epidemic, forward a report on the epidemic and the measures taken for combating it to the Chairman of the municipality. The latter will submit the report, through the District Medical and Sanitary Officer, the Collector and the Sanitary Commissioner, to Government.

26. When it is not possible in any municipality to carry out these rules in their entirety, they should be applied, in consultation with the Collector, as fully as is practically possible. Thus in a comparatively small town, where it is not possible to man an observation or preventive staff for each ward, the whole town may be divided into one or two wards. It will be noted, however, that the smaller towns which have not yet been provided with a protected water supply are those which are most liable to attack.

ANNEXURE.

PRECAUTIONS TO BE OBSERVED ON THE APPROACH OF CHOLERA.

A.—Habitations.

1. Each house must be thoroughly cleansed, that is, all manure, dirty water, washings of cattle stalls and collection of dirt of any description must be completely removed.

2. Where the earth remains damp and foul after such removal, it should be dug up till dry and clean earth is reached.

3. The old earth should be taken far from the town and may be used as manure for the fields; new earth from a clean place should be laid down.

4. The interior and exterior of houses should be whitewashed. If persons cannot afford to do the outside, the inside at least should be whitewashed.

5. Bundles of clothing and other materials hanging from the beams, or occupying in any other way the rooms in which persons sleep, should be removed.

6. Doors and windows should at all possible hours be left open, so that free ventilation be obtained.

7. If private latrines are used, they must be kept free from fæcal matter by removal at least twice daily.

8. The drains leading from houses should be cleansed twice daily.

9. Cess-pools and pits for receipt of urine of cattle should be emptied daily.

B.—The Person.

1. The body and clothing should be kept scrupulously clean. If delicate, persons should use warm, not cold, baths.

2. The food should be plain, nourishing and of good quality.

3. All vegetables, or leaves, or fruits, likely to cause diarrhœa, should be abandoned.

4. All forms of drinking to excess, debauchery, late hours and exposure to wet and cold should be avoided.

Ootacamund, September 14, 1916.

No. 10.—In exercise of the powers conferred by sub-section (1) of section 24 of the Madras Medical Registration Act IV of 1914, the Governor in Council is pleased to make the following rules for the purpose of carrying out the provisions of the Act :—

Rules under section 24 (1) (m) *of the Madras Medical Registration Act IV of 1914.*

[NOTE.—*In these rules the term Pleader shall mean a Pleader as defined in the Code of Civil Procedure.*]

SECTION I.

Preliminary procedure.

Whenever information is received that a medical practitioner who is an applicant for registration, or whose name has already been registered, has been guilty of conduct which *prima facie* constitutes infamous conduct in a professional respect, the Registrar shall make an abstract of such information.

2. Where the information in question is in the nature of a complaint by a person or body charging a medical practitioner with infamous conduct in a professional respect, such complaint shall be made in writing addressed to the Registrar, and shall state the grounds of complaint and shall be accompanied by one or more declarations as to the facts of the case.

3. Every declaration must state the description and true place of abode of the declarant, and where the facts stated in a declaration are not within the personal knowledge of the declarant, the source of the information and grounds for the belief of the declarant in its truth must be accurately and fully stated.

4. (1) The abstract and, where a complaint has been lodged, the complaint, and all other documents bearing on the case, shall be submitted by the Registrar to the President, who may, if he thinks fit, instruct the Registrar to furnish the medical practitioner concerned with a copy of the complaint and other documents and invite him by means of a registered letter to submit any explanation he may have to offer. The documents, including any explanation submitted by the practitioner to the Registrar, shall then be placed before the Council.

The Council may then

(*a*) order that all further proceedings be stopped,

(*b*) appoint a Committee to consider the matter and submit a report to the Council as to whether proceedings should be instituted under section 13 or section 16 of the Act, or

(*c*) direct that a regular inquiry be held by the Council or a Committee thereof appointed under section 17 (1) of the Act.

A Committee appointed to make a preliminary inquiry shall have power to cause further investigation to be made and further evidence to be taken and to take any legal advice or procure any legal assistance it may think necessary. The Committee shall report to the Council.

(2) If the Council consider that the case is one in which an inquiry under section 13 or 16 of the Act ought to be held, the President shall direct the Registrar to take steps for the institution of an inquiry and for having the case heard and determined by the Council.

SECTION II.

5. The Council or Committee thereof appointed under section 17 (1) of the Act shall observe in inquiries held by them the procedure laid down in the following rules.

6. When the charge is brought by a complainant, they shall require the complaint to be reduced to writing and verified by the oath or solemn affirmation of the complainant. The articles of charge and a list of documents and witnesses by which each charge is to be sustained shall then be prepared and the Registrar shall issue a notice in writing on behalf of the Council addressed to the medical practitioner concerned. Such notice shall be accompanied by a copy of the articles of charge and list of witnesses and documents referred to above and shall inform the medical practitioner concerned of the day on which, and hour at which the Council or Committee intend to deal with the case and shall call upon him to attend before the Council or Committee on that day and hour. The notice shall be in the form appended to these rules, with such variations as circumstances may require. It shall be served on the medical practitioner fifteen clear days before the beginning of the inquiry, and shall be accompanied by a copy of sections 13, 16 and 17 of the Act and of the rules to regulate the procedure for conducting any inquiry referred to in those sections. Service of the notice may be made either by delivery to the medical practitioner in person or by registered letter addressed to his usual residence.

7. In every case in which the Council resolve that no inquiry shall be instituted and notice of inquiry is issued accordingly, the complainant (if any) and the medical practitioner concerned shall upon request in writing signed by the party or his pleader, be entitled to be supplied by the Registrar with a copy of any declaration, explanation, answer or other document given or sent to the Council by or on behalf of the other party, which such other party will be entitled on proper proof to use at the hearing as evidence in support of, or in answer to, the charge specified in the notice of inquiry.

8. Any answer, evidence, or statement forwarded, or application made by the medical practitioner between the date of the issue of the notice and the day named for the hearing of the charge, shall be dealt with by the President in such manner as he shall think fit.

9. Copies of all material documents which are laid before the Council or Committee as evidence in regard to the case shall be made and furnished to each member of the Council or Committee as the case may be before the hearing of the case.

10. At the hearing of the case by the Council or Committee the complainant and also the medical practitioner concerned may, if they so desire, be represented or assisted by pleaders.

11. When the complainant appears personally or by pleader the order of procedure shall be as follows:—

(1) The complainant shall exhibit the articles of charge to the Council or Committee, which shall be openly read.

(2) The medical practitioner concerned shall then be called upon to plead "guilty" or "not guilty" to each of them, which pleas shall forthwith be recorded with the articles of charge. If the medical practitioner refuses or without reasonable cause neglects to appear to answer the charge either personally or by pleader he shall be taken to admit the truth of the articles of charge.

(3) The complainant may then address the Council or Committee in explanation of the articles of charge and of the evidence by which they are proved.

(4) The oral and documentary evidence shall then be exhibited. The witnesses shall be examined by or on behalf of the complainant and may be cross-examined by or on behalf of the medical practitioner concerned. The complainant shall then be entitled to re-examine the witnesses on any point on which they have been cross-examined. No questions should be asked in re-examination on any new matter without leave of the Council. The Council or Committee may put such questions as they think fit.

(5) If, before the close of the case for the complainant, it shall appear necessary, the Council or Committee may, in their discretion, allow the complainant to exhibit evidence not included in the list furnished to the medical practitioner concerned or may themselves call for new evidence, and in such case the medical practitioner shall be entitled to have, if he demands it, an adjournment of the proceedings for three clear days before the exhibition of such new evidence, exclusive of the day of adjournment and of the day to which the proceedings are adjourned.

(6) When the case for the complainant is closed, the medical practitioner concerned shall be required to make his defence, orally or in writing, as he shall prefer. If made in writing, it shall be openly read, and a copy shall be given at the same time to the complainant.

(7) The evidence for the defence shall then be exhibited, and the witnesses examined, who shall be liable to cross-examination and re-examination and to examination by the Council or Committee in the same manner as the witnesses for the complainant.

(8) The Council or Committee or some person appointed by them shall take notes in English of all the oral evidence, which shall be read aloud to each witness by whom the same was given, and if necessary explained to him in the language in which it was given, and shall be recorded with the proceedings.

(9) If the medical practitioner concerned makes only an oral defence and exhibits no evidence, the inquiry shall end with his defence. If he records a written defence or exhibits evidence, the complainant shall be entitled to a general oral reply on the whole case, and may also exhibit evidence to contradict any evidence exhibited for the defence, in which case the medical practitioner concerned shall not be entitled to any adjournment of the proceedings, although such new evidence were not included in the list furnished to him.

(10) When the Council or Committee shall be of opinion that the articles of charge, or any of them, are not drawn with sufficient clearness and precision, the Council or Committee

may, in their discretion, require the same to be amended, and may thereupon, on the application of the complainant or the medical practitioner concerned, adjourn the inquiry for such time as they may consider reasonable. The Council or Committee may also, if they think fit, adjourn the inquiry from time to time, on the application of either the complainant or the medical practitioner concerned, on the ground of sickness or unavoidable absence of any witness or such other cause as they may consider reasonable. When such application is made and refused, the Council or Committee shall record the application and their reasons for refusing to comply with it.

12. When there is no complainant, or no complainant appears, the proceedings shall begin by the Registrar reading to the Council the notice of inquiry addressed to the medical practitioner concerned and the articles of charge and stating the evidence by which the articles of charge are supported.

The medical practitioner shall then be called upon to plead "guilty" or "not guilty." The further proceedings shall be conducted in substantial accordance with the procedure laid down in rule 11 above.

13. The Council or Committee may, at their discretion, hold the inquiry *in camerâ*.

14. (1) Upon the conclusion of the case the Council or Committee will deliberate thereon in private, and at the conclusion of the deliberations the Council or the Committee shall vote on the question whether the articles of charge are proved or not and whether they show that the medical practitioner concerned has been guilty of infamous conduct in a professional respect or not.

(2) If the Council or Committee by a majority find the medical practitioner guilty of infamous conduct in a professional respect, the President shall direct the Registrar not to register his name if he be an applicant for registration, or to erase his name altogether or for a specified period from the register of medical practitioners if he is already a registered practitioner.

15. When the registration of the name of any medical practitioner is refused or when the name of any registered medical practitioner is removed from the register in accordance with the provisions of the preceding rules the Registrar shall forthwith send notice of such refusal or removal to the medical practitioner concerned, and such notice shall be sent by a registered letter addressed to his last known address. The Registrar shall also send forthwith intimation of any such refusal or removal to the body or bodies from whom the medical practitioner received his qualification or qualifications and shall request them not to admit him to any examination for any new qualification which is registrable in the register of registered practitioners without previous reference to the Council.

NOTICE TO CANDIDATES FOR THE PRECIS-WRITING TEST.

The following instructions are published in order that candidates may know what is expected of them in this test:—

Instructions to Candidates.

The object of a precis is that any one who has not time to read the original correspondence may, by reading the precis, be put in possession of all the leading features of what passed.

2. The candidate should begin by reading the whole of the correspondence carefully through without writing anything, so that he may clearly understand what passed and be in a position to decide what are the main heads under which the important facts should be arranged. He should then read through the paper again marking what is important.

3. The precis should begin with a brief and lucid introduction to the subject under treatment. This should be followed by a narrative in the past tense containing a brief and clear statement of the contents of the correspondence, *not* in the order of the papers nor even necessarily in chronological order, but in *logical* order. An abstract of every paper in the correspondence or an index of its contents is not a precis.

4. The merits of a precis are—

(1) to contain all that is important in the correspondence and nothing that is unimportant;
(2) to present this in a readable and consecutive shape, expressed as intelligibly and distinctly as possible;
(3) to be as brief as is compatible with completeness and clearness;
(4) to present a strictly accurate and logically connected statement of the contents of the correspondence.

No candidate can expect to pass who omits any one of the more important points; marks will be deducted if unimportant points are included or if facts are repeated unnecessarily; *e.g.*, it is not ordinarily necessary to give the date of every paper in the correspondence and the full name and designation of the writer or recipient of every letter; and if a fact is repeated in different papers it need not generally be noted more than once in the precis.

5. Grammar, spelling, style and handwriting will be considered in assigning marks; but it must be remembered that mere excellence in composition will not compensate for inaccuracy or incompleteness in the presentation of the facts of the correspondence.

They should be accompanied by a covering letter, in which should be quoted any remarks made by the inspecting officer in table (5) of the annual inspection reports of the present and previous years relating to the status of the teacher and his or her eligibility to appear for the examination. It should also be mentioned whether the applicant has appeared for the examination before.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

Bills introduced in the Indian Legislative Council for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23.

The following Report of the Select Committee on the Bill to enable Hindus and Mussalmans to make dispositions of property by transfer *inter vivos* or by will for the benefit of unborn persons was presented to the Indian Legislative Council on the 12th September 1916 :—

We, the undersigned, Members of the Select Committee to which the Bill to enable Hindus and Mussalmans to make dispositions of property by transfer *inter vivos* or by will for the benefit of unborn persons was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report, with the Bill as re-cast by us annexed thereto.

Paper No. I.—From the Hon'ble Lt.-Col Sir George Roos-Keppel, K.C.S.I., C.I.E., Chief Commissioner, North-West Frontier Province, dated 3rd March 1916, from H. M. Veitch, Esq., Registrar, High Court, Calcutta, dated 14th March 1916; from P. E. Warburton, Esq., Secretary to Chief Commissioner, Coorg, dated 18th March 1916; from W. M. Hailey, Esq., C.S.I., C.I.E., Chief Commissioner, Delhi, dated 30th May 1916, and enclosures.

Paper No. II.—From the Hon'ble Sir Elliot Graham Colvin, K.C.S.I., Chief Commissioner, Ajmer-Merwara, dated 1st June 1916 and enclosures; from the Hon'ble Mr. R. C. Allen, I.C.S., Secretary to Chief Commissioner, Assam, dated 28th June 1916, and enclosures, from the Hon'ble Mr. H. D. Craik, I.C.S., Officiating Revenue Secretary to the Government of the Punjab, dated 28th June 1916, and enclosures; from H. E. Brinton, Esq., I.C.S., Officiating Secretary to the Government of Bihar and Orissa, dated 28th June 1916, and enclosures, from the Hon'ble Lieutenant-Colonel Sir John Ramsay, K.C.I.E., C.S.I., Agent to the Governor General and Chief Commissioner, Baluchistan, dated 1st July 1916; from L. Robertson, Esq., C.S.I., Secretary to the Government of Bombay, dated 3rd July 1916, and enclosures.

Paper No. III.—From the Hon'ble Mr. C. M. Webb, I.C.S., Secretary to Government of Burma, dated 3rd July 1916, and enclosures, from Major T. H. St. Geo Tinker, Secretary to Chief Commissioner, Coorg, dated 11th July 1916, and enclosures, from the Hon'ble Mr. J. H. Kerr, C.S.I., I.C.S., Chief Secretary to the Government of Bengal, dated 20th July 1916, and enclosures.

Paper No. IV.—From the Hon'ble Mr. C. S. Findlay, I.C.S., Legal Secretary to Chief Commissioner, Central Provinces, dated 31st July 1916, and enclosures; from the Hon'ble Mr. S. P. O'Connell Secretary to Government, United Provinces, dated 11th August 1916, and enclosures.

Paper No. V.—From the Hon'ble Diwan Bahadur P. Rajagopala Ashariyar Avargal, C.I.E., Secretary to Government, Madras, dated 8th August 1916, and enclosures.

2. In obedience to the instructions contained in the order of reference, we have so amended the Bill as to confine its operation to Hindus, save that, in the exercise of the discretion vested in us, we have inserted an enabling clause permitting the Governor General in Council to extend its provisions to the Khoja community in the whole or any part of India where he is satisfied that the community in question desires the extension. Having

regard to the existence of the Hindu Transfers and Bequest Act, 1914 (Mad. Act I of 1914), we have limited the extent clause of the Bill so as to exclude the Province of Madras from its operation, but we have inserted a power allowing the Governor General in Council to extend the Act to that province should this course at any time be considered necessary or desirable.

3. The most important change in the Bill was clause 3, and this clause, now clause 2, we have re-cast so as to provide that no disposition of property by a Hindu, whether by a transfer *inter vivos* or by will, shall be invalid by reason only that any person for whose benefit it may have been made was not in existence at the date of such disposition. We consider that the clause as drawn in this form avoids many of the difficulties which would arise if we had retained the positive form in which it appeared in the Bill as referred to us.

4. Clauses 4 and 5 of the Bill, as referred to us, endeavour to combine the provisions of the relevant sections of the Indian Succession Act, 1865, and the Transfer of Property Act, 1882. The language of the two Acts differs in slight respects, and we think it is every way desirable not to attempt to combine their provisions in a composite clause, and we have preferred in section 3 of the Bill, as revised by us, to incorporate the sections of the Acts in question by reference. We are well aware that referential legislation of this kind is open to objection, but, in the circumstances, we feel that the practical advantages of reference to a well-known Code, and the incorporation of all the decisions under those provisions outweigh any such objection. In this connection, we have thought it well to include the provisions of section 20 of the Transfer of Property Act, 1882, as the wording of the Transfer of Property Act, differing in that respect from the Indian Succession Act, does not without this section, make it clear that the property is vested.

5. The only other change of substance is the omission of clause 6 of the Bill as referred to us. A perusal of the opinions recorded on the Bill leads us to the conclusion that there is no clear manifestation of opinion in favour of the retention of the English rule laid down by the clause in question, and we think, in the absence of any consensus of opinion in favour of the rule, that the clause should be omitted. The remaining alterations are mere alterations of form consequent upon the manner in which the Bill has been re-cast.

6. The Hon'ble Mr. Sarma was good enough to attend the Committee as a witness and we are much indebted to him for his assistance.

1. (*1*) This Act may be called the Hindu Disposition of Property Act, 1916.

(*2*) It extends, in the first instance, to the whole of British India, except the province of Madras: Provided that the Governor General in Council may, by notification in the *Gazette of India*, extend this Act to the province of Madras.

Dispositions for the benefit of persons not in existence.

2. Subject to the limitations and provisions specified in this Act, no disposition of property by a Hindu, whether by transfer *inter vivos* or by will, shall be invalid by reason only that any person for whose benefit it may have been made was not in existence at the date of such disposition.

Limitations and conditions.

3. The limitations and provisions referred to in section 2 shall be the following, namely:—

(*a*) in respect of dispositions by transfer *inter vivos*, those contained in sections 13, 14 and 20 of the Transfer of Property Act, 1882, and IV of 1882.

(*b*) in respect of dispositions by will, those contained in sections 100 and 101 of the Indian Succession Act, 1865. X of 1865.

Failure of prior disposition.

4. Where a disposition of property fails by reason of any of the limitations referred to in section 3, any disposition intended to take effect after or upon failure of such prior disposition also fails.

Application of this Act to the Khoja community.

5. Where the Governor General in Council is of opinion that the Khoja community in British India or any part thereof desire that the provisions of this Act should be extended to such community, he may, by notification in the *Gazette of India*, declare that the provisions of this Act, with the substitution of the word "Khojas" or "Khoja," as the case may be, for the word "Hindus" or "Hindu" wherever those words occur, shall apply to that community in such area as may be specified in the notification, and this Act shall thereupon have effect accordingly.

Proceedings of the Indian Legislative Council assembled under the provisions of the Government of India Act, 1915 (5 & 6, Geo. V, Ch. 61).

The Council met at the Council Chamber at Viceregal Lodge, Simla, on Tuesday, the 19th September 1916

PRESENT:

His Excellency BARON CHELMSFORD, P.C. G.M.S.I., G.M.I.E., G.C.M.G., Viceroy and Governor-General, *presiding*, and 52 Members, of whom 45 were Additional Members

OATH OF OFFICE.

The following Additional Members made the prescribed oath or affirmation of allegiance to the Crown:—

The Hon'ble Mr Dinshaw Edulji Wacha.
" Raja Sir Muhammed Ali Muhammad Khan, K.C.I.E., Khan Bahadur, of Mahmudabad
" Nowab Saiyid Nawab Ali Chaudhuri, Khan Bahadur

QUESTIONS AND ANSWERS.

The Hon'ble Khan ZULFIQAR ALI KHAN asked:—

1. " (*a*) Is it a fact that about 98 per cent of the Punjabi soldiers (Sikhs, Hindus and Muhammadans) of the Indian Army have been recruited from amongst Zamindars of the Punjab?

(*b*) Is it a fact that Punjab Zamindars have rendered valuable and distinguished services during the present war?

(*c*) Do Government propose to take steps to offer wider opportunities of public service to the Zamindar families of the Punjab? "

The Hon'ble Sir REGINALD CRADDOCK replied —

" (*a*) The exact proportion of Zamindars or members of agriculturist families serving amongst the Punjabi soldiers of the Indian Army cannot be stated, but it is probably more than 90 per cent.

(*b*) It is a fact that the Punjab Zamindars have rendered most valuable and distinguished service during the present war. Such service has been rendered by the entire Indian Army.

(*c*) So far as the Government of India are aware, no previous representation has been made that the Zamindars or agriculturist families of the Punjab should be given preferential treatment in the matter of admission to the public services. The matter is primarily one for the Punjab Government to deal with, but any proposals which it may wish to put forward in this respect will receive sympathetic consideration by the Government of India."

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

2. " Since the abandonment by the Government of Bengal of the enterprise of the 'Golden Crown,' has any Provincial Administration directly or indirectly encouraged the exploitation of the fishing resources of the Bay of Bengal or the Indian Ocean? If so, where, when and how? "

The Hon'ble Sir GEORGE BARNES replied:—

" As the Hon'ble Member is aware, the 'Golden Crown' was employed by the Bengal Government from June 1908 to December 1909, with a crew of expert fishermen, in trawling operations in the Bay of Bengal, with the object of locating and charting the fishing grounds and of ascertaining what kinds and quantities of fish were obtainable in the Bay. The results of the trawling operations were published by the Bengal Government in 1910, and a collection of papers dealing with the fisheries survey of the Bay was published separately in 1911. In 1914, a Bulletin by the Deputy Director of Fisheries was published by the same Local Government drawing attention to the results of the operations of the 'Golden Crown,' and inviting capitalists to take advantage of the investigations which had been made by Government. This was followed by another Bulletin which was published only last year.

With respect to the operations of the Madras Fisheries Department under Sir Frederick Nicholson, I would refer the Hon'ble Member to the various Bulletins issued by that Department, which give a full account of the important work that is being done. The work of the Madras Government in connection with the curing and canning of fish on the west coast is well-known."

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

3. " (*a*) Will the Government be pleased to state in what provinces of India the School Final system has so far been introduced? What is the total number of students who have passed in the School Final in those provinces, year by year, from 1912 up to 1916?

(*b*) Has any Indian University any control or supervision of any kind over the School Final system of secondary education? If so, where and in what way and to what extent is the supervision exercised?

(*c*) Is it a fact that in some parts of the country there is some fear of the School Final system partially supplanting and effectually interfering with higher University education?

(*d*) Do the Government propose to place the control of the School Final system with Boards consisting of official and non-official educational experts in provinces where the system obtains at present?"

The Hon'ble Sir C. SANKARAN NAIR replied:—

"(a) The School Final system has so far been introduced in the Madras and Bombay Presidencies, in the United Provinces, Burma and the Central Provinces. The number of students who have passed in the School Final examination in the provinces which have adopted the system is shown below:—

	1911-12.	1912-13.	1913-14.	1914-15.
*Madras	4,258	4,879	4,860	5,023
Bombay	877	959	765	733
United Provinces	538	603	727	980
Burma	47	94	141	157
Central Provinces	141	342	311	258

(*b*) It is probable that some members of the Boards are also Fellows of the Universities. Apart from these, there are two representatives of the Allahabad University on the United Provinces Board and, according to the latest arrangements, there are four University representatives on the Madras Board. Some of the Universities exact special conditions in the case of pupils who have obtained certificates under the School Final system and seek admission to University courses.

(*c*) Judging from expressions of opinion that have been published in the public press, it appears that some such fear exists in certain quarters.

(*d*) The Government of India have not laid down any general rules with regard to the control of the School Final system, and the arrangements vary in the different provinces. There are Boards consisting of official and non-official educational experts in Madras, the United Provinces and the Central Provinces. Similar Boards have been proposed for Bihar and Orissa and Ajmer-Merwara."

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

4. "How many Agricultural Colleges are there in India? Where are they situated and what has been the total number of students attending them, year by year, from 1910?"

The Hon'ble Mr. C. H. A. HILL replied:—

"A statement giving the information required is laid on the table.

Besides the Agricultural Research Institute and College at Pusa, there are six Provincial Agricultural Colleges in India at Coimbatore, Poona, Sabour, Cawnpore, Lyallpur and Nagpore. The total number of students attending them, year by year, since 1910 has been as follows:—

College.	Number of students attending.					
	1909-10.	1910-11.	1911-12.	1912-13.	1913-14.	1914-15.
Pusa [Post graduate course ..	4	8	7	10	8	9
Pusa [Short courses ..	48	59	33	18	7	4
Coimbatore	37	48	50	48	50	74
Poona	110	104	104	110	117	124
Sabour	College not opened.	31	19	20	18	20
Cawnpore	180	212	192	198	44	38
Lyallpur	35	65	69	60	48	78
Nagpore	47	62	58	54	46	62

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

5. "(a) Has the Railway Board made any definite recommendation regarding the proposal of bringing the Sara-Siliguri branch of the Eastern Bengal State Railway into line with the broad gauge system?

(*b*) If so, has the Secretary of State assented to the conversion of the Sara-Siliguri into broad gauge?

(*c*) If the answer to (*b*) is in the affirmative, will Government be pleased to state when the work will be taken in hand and when it will be completed?"

* The figures for Madras represent the number of candidates who have received certificates.

The Hon'ble Sir GEORGE BARNES replied:—

"The answer to the first part of the question is in the affirmative.

As regards the second and third parts of the question, the matter has still to be considered by the Government of India, and all that can be said is that this will be done and their recommendation to the Secretary of State made without delay."

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

6 "Is there in any existing University any Chair for the teaching or any facilities for the study and research of the indigenous system of medicine? If so, where? If not, do Government intend to remove this want by the establishment of such Chairs in the Universities of Madras, Bombay and Calcutta?"

The Hon'ble Sir REGINALD CRADDOCK replied:—

'There are no special facilities in any Indian University for the study of, or research in, the indigenous systems of medicine. As the Hon'ble Member is aware, the Government of India are giving their earnest attention to the matter of placing these ancient systems on a scientific basis and increasing their usefulness, but, as at present advised, they cannot see their way to establish Professorial Chairs for this purpose in the Universities of Madras, Bombay or Calcutta."

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

7. "(*a*) Has any proposal for the construction of a Railway line connecting India with Burma been before Government? If so, has the proposal been abandoned for the present?

(*b*) If the answers to (*a*) are in the affirmative, will Government be pleased to state the reasons for such abandonment?"

The Hon'ble Sir GEORGE BARNES replied:—

"There have been various proposals for the construction of a Railway line between India and Burma, but the project, like other proposals for constructing new Railways, is in temporary abeyance during the war. The Government, however, fully recognise the importance of the connection, and the project will be among the first to be considered when funds and material are available."

The Hon'ble Khan Bahadur MIAN MUHAMMAD SHAFI asked:—

8 "Will the Government be pleased to place on the table a comparative statement showing the total value of the import and export trade of the three provinces Bihar and Orissa, Agra and Oudh and the Punjab in the three years 1913-14, 1914-15 and 1915-16?"

The Hon'ble Sir GEORGE BARNES replied:—

"The comparative statement' asked for by the Hon'ble Member has been laid on the table."

The Hon'ble Rao Bahadur B. N. SARMA asked:—

9. "(1) Will Government be pleased to state whether they are contemplating the introduction, after the war of any changes—

(*a*) in the strength and composition of the Indian Imperial and Provincial Executive Councils,

(*b*) in the strength, composition and powers of the Imperial and Provincial Legislative Councils?

(2) Is it a fact that on some previous occasion or occasions changes contemplated with regard to the Imperial and Provincial Legislative Councils were published for general criticism and suggestions before they were finally sent up to, or considered by, the Secretary of State?

(3) If the answer to part 1 (*a*) or 1 (*b*) is in the affirmative, do Government intend publishing their recommendations before the same are finally sent up to the Secretary of State?

(4) If the answer to (3) is in the negative, will Government be pleased to give the reasons for their intention not to publish their recommendations?"

The Hon'ble Sir REGINALD CRADDOCK replied:—

The Government of India are unable at present to make any statement in the matter.

The Hon'ble Rao Bahadur B. N. SARMA asked:—

10. "(*a*) Will Government be pleased to state whether they are contemplating the introduction after the war of any changes in the strength, composition and powers of District and Local Boards and Presidency and mufussil municipalities?

(*b*) If so, do Government propose (*i*) to publish their proposals before the same are finally approved, and (*ii*) to consider the desirability of postponing all local self-Government legislation till the war is over?"

The Hon'ble Sir C. SANKARAN NAIR replied —

"The Government of India look forward to an extension of local self-Government but have not laid down any definite scheme for introduction after the war."

The Hon'ble Rao Bahadur B. N. SARMA asked:—

11. "Will Government be pleased to state—

(*a*) What rates of interest the cash amounting to £5,793,000 placed at short notice on the 31st March 1916, was earning?

(*b*) Whether the loans if any which have fallen in since have been renewed, and, if so, at what interest; whether any of the renewals is in favour of the same persons, and, if so, in how many cases?

(*c*) Whether the bank rates in India for short term loans were much the same or higher than those secured in London?"

The Hon'ble Sir WILLIAM MEYER replied:—

"The Hon'ble Member's question apparently relates to the balances of the Gold Standard Reserve in London on the 31st March. We have no definite information as to the actual arrangements made by the Secretary of State on that date, or as to the precise rates of interest payable. We understand, however, from information received not long before that date, that the Gold Standard Reserve balances were almost entirely placed at short notice with the Bank of England and at an adequate rate of interest. In the absence of information as to the exact rates payable on these deposits, Government are not in a position to state whether the rates which would have been paid by Banks in India for short term loans at that time were much the same or higher than those secured in London. I may add that the rates of interest given by Indian Banks at any time vary with the circumstances of individual Banks and the extent of their desire to obtain fresh money on deposit."

The Hon'ble Rao Bahadur B. N. SARMA:—

"May I ask, as a supplementary question, will the Government of India be pleased to obtain the information?"

The Hon'ble Sir WILLIAM MEYER replied:—

"I do not see the necessity for constantly telegraphing to the Secretary of State as to the precise rates of interest obtainable at any particular time on deposits made from the Gold Standard Reserve. We get periodical statements of the moneys of the Gold Standard Reserve and the amount of interest accruing from their investment. We regard that as sufficient."

The Hon'ble Rao Bahadur B. N. SARMA asked:—

12. "Will the Government be pleased to state—

(*a*) Whether the Royal Commission on Indian Finance and Currency recommended that the best rule would be that not less than one-half of the Gold Standard Reserve Fund should be held in actual gold when the total fund exceeds 30 million pounds, and that a minimum amount of 15 millions should be accumulated as rapidly as possible, and if so, whether its recommendations in this connection had been discussed or dissented from prior to the war?

(*b*) Whether the amount of actual gold held in India on 31st March 1916, was only £239,000?

(*c*) What such amount was at the commencement of the war and on the 1st September, 1916?

(*d*) Whether the Secretary of State has intimated to them his views prior to taking action in the investment of the Gold Standard Reserve Fund in England or obtained their previous approval to such action or acted against their wishes.

(*e*) Whether they contemplate taking any steps to keep the actual gold in the Gold Standard Reserve in India, and to secure the retention of the reserve of minimum gold by statutory enactment?

(*f*) Whether there was any weakness in the exchange in the earlier months of the year owing to there having been no gold in the reserve?"

The Hon'ble Sir WILLIAM MEYER replied:—

"(*a*) The answer to the first part of the Question is in the affirmative. With regard to the latter part, it was explained in paragraph 93 of my speech introducing the Financial Statement for 1915-16 that, just before the outbreak of the war, the recommendations of the Royal Commission on Indian Finance and Currency were referred for the opinions of Local Governments and representative commercial bodies, but that for obvious reasons the authorities consulted had been informed that an expression of their views might be deferred until the restoration of normal conditions. At the time when the war broke out, therefore, no conclusion had been arrived at in the matter referred to by the Hon'ble Member.

(*b*) The gold holding in the Gold Standard Reserve in India on the 31st March 1916 amounted to £238,734.

(*c*) The gold holding in the Gold Standard Reserve in India on the 1st September 1916 amounted to about £620,000. No gold was held in India on behalf of the Reserve at the time of the outbreak of the war. There was, however, at that time a holding of £4 million (6 crores) in rupees, which shortly after the war broke out was exchanged for £4 million of gold held in the Paper Currency Reserve. This transaction was explained

to the public at the time, and was also referred to in paragraph 5 of my speech introducing the Financial Statement for 1915-16. Subsequent transactions in connection with the Gold Standard Reserve, including the taking of temporary loans from that Reserve by Government, were made public, (i) in paragraphs 37 and 56 of my speech above referred to, (ii) in paragraphs 22 and 100-107 of my speech introducing the Financial Statement for the current year, (iii) in a recent Press *Communiqué*, dated the 12th September, 1916.

(*d*) The Hon'ble Member's attention is invited to the papers printed as Appendix V of the Interim Report of the Royal Commission on Indian Finance and Currency. This contains the complete correspondence on the subject of the investment of the Gold Standard Reserve up to the time when the Commission met. The Government of India have since been consulted by the Secretary of State in respect of all important steps taken in regard to the Administration of the Gold Standard Reserve.

(*e*) For the reasons explained in my answer to (*a*) above, no decision has been arrived at on the points in question.

(*f*) There has been no weakness in exchange during the current year, and there have been only two periods of depression since the war broke out. The first of these, which was referred to in paragraph 5 of my speech introducing the Financial Statement for 1915-16, commenced on the outbreak of war, and was due to what may be called international panic. The second, which occurred from June to September 1915, was explained in paragraph 102 of my speech introducing the Financial Statement for 1916-17. The remedial measures, which were successfully adopted in both cases, consisted in a prompt setting free of funds in London by means of reverse councils against a corresponding payment to the Government in India."

The Hon'ble Rao Bahadur B. N. SARMA asked:—

13. "(*a*) Has any representation been made to the Government of India on behalf of the Madras Corporation asking that an opportunity may be given to the Corporation of offering its suggestions regarding the Madras City Municipal Bill drafted by the Local Government?

(*b*) If so, will Government be pleased to give the Corporation the desired opportunity before they give their administrative approval to the Bill prior to its introduction in the local Legislative Council?"

The Hon'ble Sir C. SANKARAN NAIR replied:—

"No such representation has yet been made to the Government of India, and it is probable that some little time will elapse before the Bill can be introduced into the Local Council."

The Hon'ble MIR ASAD ALI, KHAN BAHADUR, asked:—

14. "Will the Government be pleased to state—

(a) Whether they have received any proposal for strengthening the Madras High Court by the appointment of either permanent or temporary additional judges; and

(*b*) If so, whether they propose to publish the correspondence relating to the above subject, before making their final recommendation to the Secretary of State for India?"

The Hon'ble Sir REGINALD CRADDOCK replied:—

"The Government of India have received and are considering proposals for increasing the permanent strength of the Madras High Court. They do not at present propose to publish the correspondence."

The Hon'ble MIR ASAD ALI, KHAN BAHADUR, asked:—

15. "(*a*) Have the Government of India received any suggestion from the Government of Madras that the standard of the local Madrasa-i-Azam should be raised in consequence of the difficulties experienced by Muhammadan pupils, especially those from the mufassal, in gaining admission into Madras colleges for want of room?

(*b*) If so, do Government propose to raise the Madrasa-i-Azam to a second grade college?"

The Hon'ble Sir C. SANKARAN NAIR replied:—

"No such suggestion has been received from the Government of Madras."

The Hon'ble Rai Bahadur BISHAN DUTT SHUKUL asked:—

16. "Will Government be pleased to say—

(*a*) If any definite proposals regarding the establishment of a University at Nagpur have been received from the Local Government?

(*b*) If so, what action, if any, is proposed to be taken for the early establishment of the same?"

The Hon'ble Sir C. SANKARAN NAIR replied:—

"There have been informal discussions between the officers of the Department of Education and those of the local Administration, but no definite proposals have yet been submitted to the Government of India."

The Hon'ble Rai Bahadur Bishan Dutt Shukul asked:—

17. "Have Government received any opinions and proposals relating to the constitution of a Chief Court at Nagpur from the local Administration? If so, will Government be pleased to lay on the table the whole correspondence on the subject?"

The Hon'ble Sir Reginald Craddock replied:—

"The recommendations of the local Administration on this subject have not yet been received."

The Hon'ble Rai Bahadur Bishan Dutt Shukul asked:—

18. "Did the Royal Commission on Decentralization in India, in paragraph 765 of their Report, make certain recommendations regarding powers to be conferred on District Boards to levy a special extra cess for the development of light local railways and tramways? If so, will Government be pleased to state how far those recommendations have been given effect to in the various provinces in India?"

The Hon'ble Sir C. Sankaran Nair replied:—

"The reply to the first part of the question is in the affirmative. In regard to the later half of the question, Local Governments and Administrations other than Madras (where the power already exists) were empowered in 1913 to undertake legislation if they so desired, authorising District Boards, subject to conditions similar to those laid down in the Madras Local Boards Act (V of 1884), to levy a special extra land cess not exceeding 3 pies in the rupee on the annual net value of land for the development of light local railways and tramways.

The Punjab Government recently proposed an amendment of the Punjab District Boards Act with the object of conferring such powers on District Boards, but have decided to withdraw the Bill on account of the opposition of the non-official members of the local Legislative Council. No other Local Government has so far undertaken any legislation on the subject."

The Hon'ble Rai Bahadur Bishan Dutt Shukul asked:—

19. "(*a*) Has the attention of Government been drawn to any memorial recently submitted to the Local Government by the Provincial Association of the Central Provinces and Berar, praying for the enlargement of the local Legislative Council to the maximum number of thirty members prescribed by the Government of India Act, 1915?

(*b*) Is it a fact that various important professions and interests are not adequately represented in the Central Provinces Legislative Council owing to the present number of members being limited to twenty-five only?

(*c*) Do Government propose to take into consideration the question of raising the number of members of the said Council?"

The Hon'ble Sir Reginald Craddock replied:—

"(*a*) The answer is in the negative.

(*b*) The Government of India are not aware that the facts are as stated by the Hon'ble Member.

(*c*) The Central Provinces Legislative Council has only been in existence for two years, and no question of enlarging it has come under consideration."

The Hon'ble Dr. Tej Bahadur Sapru asked:—

20. "(*a*) Will Government be pleased to state whether they have recently recommended to the Secretary of State for India in Council the establishment of an Executive Council in the United Provinces, and whether any reply on the subject has been received?

(*b*) Do Government propose to establish an Executive Council in the United Provinces with a Lieutenant-Governor or a Governor as its head?"

The Hon'ble Sir Reginald Craddock replied:—

"The Government of India have renewed their recommendation to the Secretary of State for the establishment of an Executive Council in the United Provinces. They are not in a position at present to give further information on the subject."

The Hon'ble Dr. Tej Bahadur Sapru asked:—

21. "Will Government be pleased to state if they have under contemplation any scheme of constitutional reforms to be given effect to after the war? If so, do they intend to invite an expression of public opinion on the scheme before taking any final decision in the matter?"

The Hon'ble Sir Reginald Craddock replied:—

The Hon'ble Member is referred to my reply to a similar question by the Hon'ble Rao Bahadur B. N. Sarma to-day."

The Hon'ble Babu Bhupendra Nath Basu asked:—

22. (*a*) Is it a fact that there has been in India a marked reduction in the consumption of spirits and drugs from April 1913, to March 1916? If so, will Government be pleased to lay on the table a statement showing such reduction in the various provincial areas?

(b) Do the Government of India propose to consider the question of suggesting to Provincial Governments the advisability of reducing the number of shops in which spirits or drugs are sold, with a view to discourage the consumption of intoxicants ?

(c) Is it the avowed policy of the Government of India to discourage such consumption ?"

The Hon'ble Sir GEORGE BARNES replied:—

"(a) Figures for 1915-16 are not available, as the Excise Administration Reports for that year have not yet been received. I lay on the table, however, a statement* showing the consumption of spirits and drugs in the various provinces during the years 1913-1914 and 1914-1915, from which it will be seen that there was in the latter year a considerable fall in the consumption of spirits.

(b) With reference to part (b) of the question, I would invite the Hon'ble Member's attention to Volume I of the papers relating to Excise Administration in India, published in the Supplement to the Gazette of India of the 25th July, 1914, which shows that the matter was recently carefully considered both by the Government of India and the Local Governments and Administrations, and that instructions were issued to the latter to keep in view the policy of reducing the number of shops for the sale of liquor and drugs. That they are steadily following this policy will, I think, be clear from the further statement that I place on the table showing the number of shops for the sale of exciseable articles in the various provinces during each of the years 1912-1913 to 1914-1915.

(c) The answer to part (c) of the Hon'ble Member's question is in the affirmative."

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

23. "Will Government be pleased to state—

(a) How many schemes for new Universities in India have been matured, and by what time each of such Universities is likely to be established ?

(b) Which of these proposed Universities are to be of the purely federal type, which of them purely residential, and of which of them of a mixed type ?"

The Hon'ble Sir C. SANKARAN NAIR replied:—

"(a) Schemes for Universities at Dacca, Patna, Rangoon and Nagpur are in various stages of preparation. It is not possible to say when each of these is likely to be established, but it is proposed to introduce legislation in connection with the Patna scheme at this session.

(b) The Patna scheme contemplates a mixed type of University, but the exact type to which the other proposed Universities may conform cannot be definitely stated at present."

The Hon'ble Maharaja Sir MANINDRA CHANDRA NANDI asked:—

24. "(a) In what parts of India have any operations under the cadastral survye been so far commenced or completed ?

(b) Are Government aware of any grievance regarding the operations of the cadastral survey in any part of India, in connection with the relation between the landlord and the tenant and between the zamindar and the State, and also in connection with the expenditure which the survey has involved ?"

The Hon'ble Mr. C. H. A. HILL replied:—

"(a) Cadastral survey operations commenced in practically all parts of British India many years ago, and in most Provinces and Administrations have already been completed. The only Provinces in which original operations on a large scale are now in progress are Bengal and Bihar and Orissa. Revision surveys are carried out as occasion requires under the orders of the Local Governments.

(b) The answer to the second part of the question is in the negative."

The Hon'ble Rao Bahadur B. N. SARMA asked:—

25 "(a) With reference to the statement on the subject made by His Excellency the President in his speech in Council on the 5th instant, will the Government be pleased to state—

(i) when approximately the discussion on the question of emigration to the Colonies is expected to take place in London ?

(ii) whether India will be represented at such discussion by the Secretary of State, or by any special officer or officers from this country deputed for the purpose, and whether the services of any representative non-official Indian will be utilised ?

(b) Is there any intention to consider what the respective relations and the relative positions of India, the Colonies, and the other integral parts of the British Empire should be therein after the war ?

(c) If the answer to (b) is in the affirmative, do Government propose to consider the desirability of suggesting the postponement of such a discussion on the ground that it is controversial ?"

The Hon'ble Sir GEORGE BARNES replied:—

"The Conference between the India Office and the Colonial Office, to which the Hon'ble Member refers, will, we believe, take place in January next. The India Office

* Not included in these Proceedings.

will be represented by Lord Islington, the Under Secretary of State, and an officer who will be specially deputed by the Government of India for the purpose from this country. The answer to part (*b*) of the Hon'ble Member's question is in the negative, and part (*c*) consequently does not arise."

The Hon'ble Rai SITA NATH RAY Bahadur asked:—

26. "(*a*) Will Government be pleased to state when the Bill to establish the University of Dacca is likely to be introduced in this Council?

(*b*) Has the attention of the Government been drawn to the reply given by the Government of Bengal to a question regarding the Dacca University modified scheme, put at the Dacca session of the Bengal Legislative Council on the 7th August last? If so, will the Government be pleased to state if it is proposed to establish the said University in the modified form as sketched out in the above reply?

(*c*) Is it a fact that the Government of Bengal have refused to open a department to teach Mechanical and Electrical Engineering in the Dacca School of Engineering?

(*d*) If so, do the Government of India propose to consider the question of providing a fully equipped Engineering College under the University of Dacca?"

The Hon'ble Sir C. SANKARAN NAIR replied:—

"(*a*) and (*b*) The question of legislation for the University at Dacca and the scope of the scheme are at present under consideration.

(*c*) The Government of India have no information on the matter, and hence the portion of the question lettered (*d*) does not arise."

The Hon'ble BABU BHUPENDRA NATH BASU asked:—

27. "(*a*) Have the Home Government entered into a contract with Messrs. Ralli Brothers for the supply of jute to the Dundas mills for the purposes of the war?

(*b*) If so, will Government be pleased to state whether, before the contract was entered into,—

(*i*) they were consulted by the Home Government?

(*ii*) any British firm or group of firms had been approached with regard to the contract?

(*c*) Will Government be pleased to make a statement as regards their policy in their dealings between British and non-British firms with respect to Government contracts?"

The Hon'ble Sir GEORGE BARNES replied:—

"With the permission of His Excellency the President, I would ask the Hon'ble Sir Francis Stewart also to ask his question, as for the convenience of Council, I would propose to answer both questions together giving the two Hon'ble Members and this Council such information as I can on the subject."

The Hn'ble Sir FRANCIS STEWART asked:—

28. "(*a*) Have the Government of India received information of any arrangement made at Home between His Majesty's Government and Messrs Ralli Brothers whereby the latter will become the sole purchasers and shippers of Government jute requirements for Dundee?

(*b*) Are Government aware that the report that such an arrangement has been made was received with astonishment and indignation in Calcutta and elsewhere in India?

(*c*) If the answer to (*a*) is in the affirmative, will Government be pleased to state—

(*i*) The detailed terms of this arrangement, including approximately the quantity of jute involved and the period during which it is proposed that the arrangement should continue?

(*ii*) If the arrangement was made with the previous knowledge and approval of the Secretary of State for India, and the Government of India?

(*iii*) If the answer to (*ii*) is in the negative, what steps, if any, the Government of India have taken in the matter, and how it now stands?

(*d*) Have the Calcutta Baled Jute Shippers Association made any counter proposals? If so, have the Government of India recommended to His Majesty's Government the adoption of those proposals?

(*e*) If the answer to (*d*) is in the affirmative, will Government be pleased to state what reply they have received?"

The Hon'ble Sir GEORGE BARNES replied:—

"The arrangement in question has apparently been entered into by the War Office, but whether it is a formal contract or not, I am unable to state. I think I ought to state at the outset that the arrangement was made without the knowledge of the Secretary of State or of the Government of India. As to the nature of the arrangement, I think the best course will be that I should read to you some extracts from telegrams which have been received by His Excellency from the Secretary of State.

'War Office ask me to place following statement of case before you. Rallis undertake to place at disposal of War Office their whole organization and up-country establishments throughout India. Proportion of Ralli's total purchases of jute will be allocated to War Office, and will be collected, sorted and pressed by Rallis. Payment will be made at actual net cost f.o.b. Calcutta, including expenses of labour, transport pressing, after verification of cost by Government auditors. In addition, Rallis will receive flat rate commission

for general establishment expenses, calculated on establishment expenses for several years. Except for saving on establishment expenses no provision made for profit or commission. All intermediate profits are excluded and Government charged net cost. Rallis further agree to forego all private dealings in jute for Dundee during currency of agreement. Arrangements do not preclude War Office from buying other dealer's marks either through Rallis or direct, if market conditions warrant it.'

'Arrangement has been made for the duration of the war. It is impossible to state quantities of jute involved, which will vary with War Office requirements and amount purchased from other firms, but it may be mentioned that War Office have been taking approximately one-third of output of Dundee.'

With regard to the latter parts of the Hon'ble Sir Francis Stewart's question, I hope that he will be satisfied if I assure him that the Government of India are in close communication with the Secretary of State on the subject of the arrangement, and with reference to the counter proposals which have been made by the Calcutta Baled Jute Shippers Association, and if I tell him that the Hon'ble Mr. Low is at present in Calcutta by His Excellency's special leave in order to consult with the various interests concerned.

So far as the Hon'ble Member's questions have not been covered by the foregoing statement, I would add in answer to the Hon'ble Mr Basu's question (*b*) (*ii*) that the Government of India have no information on the subject, and with regard to his question (*c*) that the Government of India are not prepared to make any general statement of policy at this juncture. In regard to (*b*) of the Hon'ble Sir Francis Stewart's question, the answer is in the affirmative.

THE AMENDING BILL.

The Hon'ble Mr. G. R. Lowndes:—"My Lord, I move for leave to introduce a Bill to amend certain enactments. The Bill is a short and unimportant one, making only certain formal amendments in various Acts, such as have to be introduced from time to time. The larger number of the proposed amendments are concerned with the creation of the Patna High Court under the recent Government of India Act, which necessitates certain amendments in the Criminal Procedure Code and in the Civil Procedure Code. I may add, for the information of members, that if this motion is accepted, it is proposed that this Bill should be passed at the next sitting of this Council. I formally move, my Lord, to introduce the Bill."

The motion was put and agreed to.

The Hon'ble Mr. G. R. Lowndes:—"My Lord, I beg to introduce the Bill, and to move that the Bill together with the Statement of Objects and Reasons relating thereto, be published in the *Gazette of India* in English."

The motion was put and agreed to.

THE INDIAN LUNACY (AMENDMENT) BILL.

The Hon'ble Sir Reginald Craddock:—"My Lord, I beg to move that the Bill to amend the Indian Lunacy Act, 1912, be taken into consideration. On the last occasion when the Bill was before the Council. I explained the reasons for the introduction of the Bill, and as no notice has been received of any amendments since the Bill has been put before the Council, I beg now to move that the Bill be taken into consideration."

The motion was put and agreed to

The Hon'ble Sir Reginald Craddock:—"My Lord, I beg to move that the Bill to amend the Indian Lunacy Act, 1912, be passed."

The motion was put and agreed to.

THE HINDU AND MUSSALMAN DISPOSITION OF PROPERTY BILL.

The Hon'ble Mr. Muhammad Ali Jinnah:—"My Lord, on behalf of the Hon'ble Mr. Setalvad, I beg to present the Report of the Select Committee on the Bill to enable Hindus and Mussalmans to make dispositions of property by transfer *inter vivos* or by will for the benefit of unborn persons."

The Council adjourned to Wednesday the 27th September 1916.

(Republished by order of His Excellency the Governor in Council)

C. G. TODHUNTER,
Acting Secretary to Government, Legislative Dept.

Acts of the Indian Legislative Council assented to by the Governor General.

The following Act of the Indian Legislative Council received the assent of the Governor General on the 20th September 1916, and is hereby promulgated for general information :—

ACT No. XII of 1916.

An Act to amend the Indian Lunacy Act, 1912.

WHEREAS it is expedient to amend the Indian Lunacy Act, 1912; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Indian Lunacy (Amendment) Act, 1916

Insertion of new section 11A in Act IV, 1912.

2. After section 11 of the Indian Lunacy Act, 1912, the following section shall be inserted, namely :—

Reception order in case of lunatics from foreign States in India.

"11 A. (1) When an arrangement has been made with any foreign European State with respect to the reception of lunatics in asylums in British India, the Governor General in Council may, by notification in the *Gazette of India*, direct that reception orders may be made under this Act in the case of any lunatic or class of lunatics residing in the territories in India of such foreign European State, and shall in such notification specify the province or provinces within which such reception orders may be made.

Bill to be introduced into the Council of the Governor of Fort St. George for the purpose of making Laws and Regulations.

Under rule 33 of the rules for the conduct of business at meetings of the Council, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

No. 6 of 1916.

A Bill to regulate the rate of interest and the transfer of land in the Ganjam and Vizagapatam Agency Tracts.

WHEREAS it is expedient to limit the rate of interest and to check transfers of land in the Agency tracts of the Ganjam and Vizagapatam districts, It is hereby enacted as follows:—

1. This Act may be called the Agency Tracts Interest and Land Transfer Act, 1916.

2. In this Act unless there is anything repugnant in the subject or context—

(*a*) "Agency tracts" means the scheduled districts as defined in Acts XIV and XV of 1874 and included within the districts of Ganjam and Vizagapatam.

(*b*) "transfer" means mortgage with or without possession, lease, sale, gift, exchange or any other dealing with property by way of trust or otherwise not being a testamentary disposition, and includes a charge or any contract relating to land.

(*c*) "hill tribe" means any body or class of persons that may from time to time be notified as such for the purposes of the Act by the Governor in Council.

(*d*) "prescribed" means prescribed by rules made under this Act.

3. In any suit instituted after the commencement of this Act,

Section 31 of the Angul Laws Regulation III of 1913.

(*a*) Interest on any debt or liability shall not as against a member of a hill tribe be allowed or decreed at a higher rate than twenty-four per centum per annum notwithstanding any agreement to the contrary, nor shall any compound interest or any collateral advantage be allowed as against him;

(*b*) The total interest allowed or decreed on any debt or liability as against a member of a hill tribe shall not exceed the principal amount.

Section 61 of the Angul Laws Regulation III of 1913.

4. (1) Any transfer of immovable property within the Agency tracts by a member of a hill tribe shall be absolutely null and void unless made in favour of another member of a hill tribe, or with the previous consent in writing of the Agent to the Governor, or any other prescribed officer.

(2) Where a transfer is made in contravention of sub-section (1), the Agent to the Governor or any other prescribed officer may *suo motu* or on application by any one interested, decree ejectment against any person in possession of the land claiming under the transfer and may either restore the land to the transferor or his heirs, or deal with the land in any other manner that may be prescribed.

(3) Subject to such conditions as may be prescribed, an appeal against a decree or order under sub-section (2) made by any officer other than the Agent shall lie to the Agent whose decision shall be final.

5. Notwithstanding the provisions of any law to the contrary, every suit against a member of a hill tribe instituted after the commencement of this Act shall be instituted only in the courts of the Agency tracts.

6. (1) The Governor in Council may from time to time make rules to carry out the purposes of the Act.

(2) All rules made under this section shall be published in the *Fort St George Gazette* and, on such publication, shall have the same effect as if enacted in this Act.

STATEMENT OF OBJECTS AND REASONS.

The gradual dispossession of the Khonds of the Ganjam Agency of their cultivable lands by Uriyas and others has for some years past attracted the attention of the local Revenue officers, practically all of whom have agreed that special measures are necessary to protect them against further expropriation. In September 1914 the Governor in Council appointed a special officer to make a comprehensive examination of the agrarian and economic condition of these people. This officer was instructed to visit the Ganjam Agency and make himself acquainted with the circumstances of the Khonds and with the details of the process by which they have been gradually losing possession of their lands, to consult the local officers and obtain their views as to the feasibility of devising means to check this dispossession and as to the form which interference should take, and to submit definite proposals to the Government. The special officer also visited the Khondmals of Orissa to ascertain the conditions prevailing there. As a result of the enquiries made by him, he has recommended that measures, similar to those adopted in the Khondmals of Orissa under sections 31 and 61 of the Angul Laws Regulation III of 1913 should be adopted in this Presidency for preventing the further alienation of lands by the Khonds and certain other hill tribes and for limiting the interest payable on loans sued for in the Agency Civil Courts. The Governor in Council has accepted these recommendations and the Bill is intended to give effect to them.

The Agent to the Governor in Vizagapatam also brought to the notice of the Government the existence of similar evils in the Vizagapatam Agency tracts, and the present opportunity has been taken to make the Bill applicable to the hill tribes in that Agency.
